

EVAPORATED, CONDENSED AND DRY MILK REPORT FOR AUGUST 1967

September 29, 1967

PRODUCTION

EVAPORATED AND CONDENSED MILK: Evaporated whole milk production during August is estimated at 142 million pounds by the Crop Reporting Board. This is 11 percent below August 1966, 17 percent less than the 1961-65 average for the month, and the lowest August production since 1932. Production during the first eight months of this year totaled 1,108 million pounds, 10 percent below the comparable period last year.

Output of canned sweetened condensed whole milk during August was 3.4 million pounds, about one-fourth that of a year earlier, and less than one-half of the 5-year average for the month. January through August production at 42.4 million pounds, was down 49 percent from the corresponding period of 1966.

Annual total	2,104.4	1,988.5	1,595.1			

DRY MILK: Production of nonfat dry milk (spray and roller process combined) during August is estimated at 130 million pounds, up 16 percent from the same month last year, but down 11 percent from the 1961-65 average. Total output for the first eight months of 1967 was 1.3 billion pounds, up 6 percent from the same period last year.

Spray-process nonfat dry milk production, at 127 million pounds, was 17 percent above August 1966, but 8 percent less than average. Cumulative output, January through August, at 1.2 billion pounds, was 7 percent more than the corresponding months a year earlier.

Roller-dried nonfat milk production in August was 3.1 million pounds-- 26 percent less than a year earlier and 58 percent less than the 5-year average for the month.

Output of dry whole milk was 5.1 million pounds, down 30 percent from August 1966 and 21 percent less than average. Total production in the first eight months this year was 61 million pounds, a decrease of 13 percent from the comparable period last year.

August dry buttermilk production at 5.6 million pounds, was down 2 percent from a year earlier and 6 percent below the 5-year average. The January through August total of 50 million pounds is 9 percent less than for this period in 1966.

Output of dry skim milk for animal feed was 2.5 million pounds, up 4 percent from August a year ago and 30 percent above average.

STOCKS, SHIPMENTS, PURCHASES, AND PRICES

EVAPORATED AND CONDENSED MILK: Evaporated whole milk stocks held by reporting manufacturers on August 31, totaled 282 million pounds -- 30 percent more than a year earlier and 1 percent above the 1961-65 average for the date. Holdings of canned sweetened condensed whole milk, at 13.6 million pounds, were up 98 percent from August 31 last year, and were 68 percent above average.

Prices paid by condenseries to producers during August averaged \$4.02 per hundredweight for milk having an average milkfat content of 3.81 percent. This is equivalent to \$1.06 per pound of milkfat -- unchanged from July, but 3 cents less than in August 1966.

Purchases of whole milk in August, as reported by condenseries for which historical data are available, totaled 303 million pounds received from about 39,000 producers. Average daily purchases per producer were 250 pounds, a gain of about 7 percent from August last year and up 17 percent from the 5-year average for the month.

Evaporated whole milk selling prices in August, as reported by manufacturers, averaged \$7.05 per case of forty-eight 14½ oz. cans. This is unchanged from a month earlier, but up 12 cents from August 1966.

DRY MILK: Manufacturers' stocks of all nonfat dry milk for human consumption at the end of August were 153 million pounds -- 18 percent more than a year earlier and 28 percent above average for the date. The inventory of spray-dried nonfat, at 149 million pounds, was up 17 percent from August 31 last year and 35 percent above the 5-year average. Dry whole milk stocks were 8.6 million pounds, up 5 percent from a year earlier and 41 percent more than August 31 average. Holdings of dry buttermilk at 9.2 million pounds, were about double those of a year earlier and 17 percent more than average for the date.

Shipments during August of spray and roller process nonfat dry milk for human use totaled 114 million pounds -- 13 percent less than in July, but 3 percent more than in August 1966. Movement of spray-dried nonfat, at 112 million pounds, accounted for about 99 percent of the combined shipments. Dry whole milk shipments totaled 5.5 million pounds -- an increase of 35 percent from the previous month, but 20 percent less than a year earlier. Total shipments of dry buttermilk in August were 5.2 million pounds, up 24 percent from July and up 36 percent from August last year.

(Continued from page 3)

Selling prices for spray and roller process (combined) nonfat dry milk averaged 19.8 cents per pound in August, about unchanged from July, down 0.4 cents from August a year ago, but 5.1 cents more than the 5-year average for the month. Spray process prices averaged 19.8 cents in August, the same as for spray and roller process combined. Roller-dried nonfat milk average price was 19.8 cents, compared with 19.6 cents for the previous month and 20.0 cents for August last year.

Dry buttermilk prices (human food and animal feed combined) averaged 16.9 cents per pound in August, 0.2 cent less than for the previous month and 3.5 cents less than in August a year ago. Dry whole milk prices in all package and container sizes averaged 40.3 cents per pound compared with 39.0 cents in July and 42.6 cents per pound in August 1966.

Table 11.-Milk bought by condenseries: Quantity bought, and number of producers, August 1967 1/

Item	Average August 1961-65	August 1966 <u>2/</u>	August 1967
Milk bought from producers..... pounds	458,609,000	323,844,000	302,864,000
Producers..... number	69,000	45,000	39,000
Average per producer per day... pounds	214.4	234.4	250.2
Change in purchases per producer:			
1967 from 1966 percent	XXXXX	XXXXX	+ 6.7
1967 from 5-year average percent	XXXXX	XXXXX	+16.7

1/ Reported milk purchases at those plants (or their receiving stations) with canning equipment for which historical data are available. In some periods a part or all of the milk received at such plants may be used for purposes other than the manufacture of canned milk.

2/ Revised.
